

## Technical Team Report for APCM 2024

The team has grappled with audio/visual issues during the last year, the current situation being:

New HDMI projector purchased and installed in January 2024.

Other pieces of equipment being tested piece by piece until the faults are found. We have asked for people's patience over this period.

- Forthcoming issues to be dealt:

Simplification of sharing of documents using Dropbox coupled with further investigation into a Church Management System.
